

i am sending this to please ask that you will not take k-love off our FM station. it has been my saving grace when i am in my car. I drive probably 40 miles a day. so i am in my car quite often. The thing i don't understand about all of this is K-love is nothing but encouraging and positive towards my life and many others. But you leave on the other stations that I know is one more reason of the decline in our country today. I ask you please do not take K-love off the air.
